

5 RIVERS FALL CAMPOREE

September 29 – October 1, 2023

Code Breaker: Impossible Mission – Stealth Search and Retrieve

Background:

- One week ago, a spy drone was shot down. CIA immediately dispatched a team of TOP UNDERCOVER AGENTS to locate and to retrieve the drone (if it is intact) and the “BLACK BOX”. The flight recorder contains government **TOP SECRET** data.
- Unfortunately, 2 days ago, the CIA has lost contact the entire recovery team!

Current Situation:

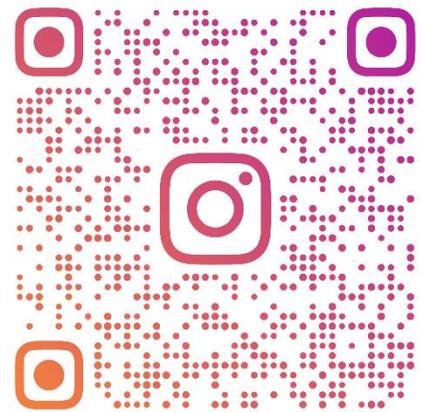

- We need to train new secret agents (SPIES) that can traverse the 10 miles area from the last known contact
- Our initial agents were trained and instructed to leave a trail of encrypted clues, in the event of capture, so the second wave of AGENTS could pick up where the initial group left off, and rescue the missing agents and the downed drone -and the data contained within the BLACK FLIGHT BOX.
- Training will involve code-breaking skills, evasion of enemy detection systems, building work around solutions ‘on-the-fly’ (this territory is largely unknown, so we need to be prepared for anything)

Why are scouts recruited

- Scouts, you have been asked to Maubilla Scout Reservation because you are the best of the best from our area. But we can’t send everyone to retrieve the downed-drone. We need to see which patrols are the absolute best! We will update and train each of you on the latest techniques to avoid detection and locate and decrypt messages that may have been left behind.
- We need to train all of the patrols to build (1) Teamwork (2) Physical strength and Endurance and decryption message solving.
- This will be like Top Gun -like competition -each patrol will compete and be scored. We will announce scores throughout the day.
- The top teams will be sent to retrieve the missing downed drone and its black box and decrypt the combination to UNLOCK the box – SAVE THE WORLD
